American Association Games To-Day. Says Columbus Forfelted Game by Indianapolis at Columbus. Louisville at Toledo. Kansas City at Milwaukee. St. Paul at Minneapolis.

The Indianapolis champions labor under the impression that they would not show proper respect for the clergy if they were to have fun with the delivery of the Rev. Dr. Crabill, chief twirler of the Columbus team. The other day they refused to connect safely with his delivery and again yesterday they did not believe in clustering their safe ones at times when they would do the most good. As a result the fans naw Indianapolis lose the last game of the series to Columbus by a score of 6 to 3. It was the last contest in Indianapolis until July 9, and the Hoosiers were due for a victory to even matters for the ruling made by President Hickey, but fate was against the Hoosiers.

outplayed them in the field, but through a lucky turn of circumstances the errors made by the visitors did not cost a victory | the tail-enders of the league. Hoosie's' chances to bag a game.

Ford started to do the twirling for the home team. He got through the first inning all right, but in the second he became ill and his curves were as easily solved as the simplest problem in addition. He was day, Friday and Saturday of next week. so dizzy after the inning that he was not able to go to bat and Manager Watkins substituted Kellum at the bat. After the wildness in the third helped Columbus to Place or telephone Main 1491 old. cinch the game.

a feature of the game. He played brilliant ball in the field and his stick work was above the average. Woodruff did the backstop work and he did it well. He scored two of the runs credited to Indianapolis and his willow work helped to give Indianapolis a showing. In the last inning, with the bases filled, he drove a long fly to center, but Bannon was playing a deep field and got under the ball. HOOSIERS LED IN FIRST.

Ford opened the contest by passing Gleason, and a sacrifice advanced the runner to second. Arndt and Turner were easily retired and the spectators took hope. After Hogriever and Fox went out on easy infield chances Woodruff singled to left. Crabill made an effort to catch Woodruff napping at first, but the throw was wild and Woodruff completed the circuit.

Columbus took the lead in the first of the second by scoring two. With two out Raymer singled and a wild pitch sent him to second. G. Fox drew a pass and Crabill's hit to left sent Raymer across the plate and advanced Fox to third. Gleason scored Fox with a single. After Bannon walked Arndt

The Hoosiers took advantage of an error in the last half and tied the score. Jones cled, but was forced at second by Kihm. Raymer attempted to make a double play, on his wild throw Kihm went to third. After Tamsett flew out Marcan scored Kihm

with a single to left. Newlin went to the slab in the second nd his wildness gave Columbus two runs. He passed Turner as a starter. Mellor forced urner and a wild pitch advanced Mellor second. Thoney walked, and another ild pitch advanced both men. Raymer sined to left and Mellor and Thoney pranced The next two men were retired. h two out in the last of the third Woodruff hit to center for three bases and

Coulter's double scored him. That was the last time the Hoosiers scored. A base on balls to Mellor in the fifth, a sacrifice and Raymer's double added one to Columbus's score. By the same trick Co-

scored one in the seventh. Thoney walked and was sacrificed to second. Fox gled to right, sending Thoney across The Hoosiers got three men on bases in the ninth, but Wodruff's long fly to center retired the side. Score:

Leaving Louisville Monday. Under some peculiar construction of the American Association constitution President Hickey has decided that Columbus forfeited to Louisville on Monday by refusing to play Sunday's postponed game in that city on Monday. The American Association standing has been changed to conform with Hickey's ruling. Indianapolis is deprived of Monday's victory over Columbus, as Hickey says the game will be thrown out. Louisville is credited with an additional game won, but the standing of Co-

umbus is not changed. Manager Watkins, of Indianapolis, and Business Manager Quinn, of the Columbus Club, will appeal the decision to the board of directors as they claim President Hickey had no grounds for allowing Tebeau's claim for a forfeited game.

Salacylic Acid in Strawberries.

The strawberry season is at hand, and his delicious fruit is not without its advocates as to its advantages in rheumatism. Indeed, some have gone the length to state that strawberries may not only be taken with impunity by the rheumatic and gouty but with distinct advantage if not relief. It is a somewhat curious coincidence, therefore, that in the strawberry the presence of salicyclic acid, which is, of course, in good shape.

a specific in acute rheumatism, has been definitely established. As a matter of fact, salicylic acid would appear to be a normal constituent of most fruits. At any rate, this acid has been found, not only in the strawberry but in grapes, apples, plums, oranges and cherries, although the amount is probably less than one milligramme (1-64th of a grain) per kilogramme (two pounds) of fruit. It is hardly possible, therefore, that the strawberry should have any specific medicinal effect attributable to the salicylic acid present. A few weeks back there was recorded in our columns a formidable case of sprue in which strawberries in the diet apeared to act as a specific in the disease. As is well known, most fruits possess anti-scorbutic properties and contain salts which readily become converted into carbonates in the system, thus tending to maintain an alkaline condition and preventing the formation of acid deposits. The fact, however, that salicylic acid exists normally in fruits is of interest in connection with the use of salicylic acid as a preservative in jams. It is possible that some magistrates may regard this natural occurrence of the aicid in fruits as a plausible defense in those cases in which proceedings are taken for the addition of small quantities of the

preservative. GRIFFITH WON HIS GAME

DICK WELLES CUTS SIX FURLONG

RECORD TO 1:11 4-5.

Started a Second Late and Actually Ran the Distance in 1:10 4-5-Given

an Enthusiastic Ovation.

CHICAGO, June 30.-Dick Welles set a new world's record for six furlongs at Washington Park to-day, running the distance in 1:11 4-5. He carried 109 pounds. The former record was 1:12, held jointly by Lux Casta and Bummer. Dick Welles set the new mark under remarkable circumstances. He was almost left at the post. When the barrier flew up his head was turned and his rider not ready. He was fully a second behind his field at the start. The pace was terrific, but Jockey Knight set out after the field. He closed the gap of about ten lengths slowly but surely. He saved ground on the turns and took the rail after entering the stretch. He advanced on the leaders at every stride and then hitched up with Runnels, who looked like a winner. Dick Welles slowly overhauled him and won by three-quarters | day and the ring received the worst scorchof a length. Taking the official time as a basis, Dick Welles ran the distance in dried and was in very good shape. Gold-1:10 4-5. The official time was freely disputed, as it has been in numerous instances | year, won the Equality stakes for threerecently. There were dozens of horsemen who caught the race in 1:11 2-5. The demonstration following the victory

of Dick Welles was thrilling. The colt was a 6-to-5 favorite, and his feat of winning after so bad a start was loudly applauded When the time was hung out the crowd went wild in halling the new king of sprint- favorite. Men Who Will Officiate at the Fair Grounds Races.

Another large lot of running horses arrived at the Indianapolis track yesterday from some of the largest tracks in this part of the country. There were a few Derby purse candidates in the list. The thoroughbreds are getting into excellent shape for the big running races to be given on Saturday and all of next week by the Indianapolis Racing Association. The directors of the association have announced the following officials for the race Starter-W. B. Blair.

Philadelphia Press.

"Radio-activity" was the subject of a paper Wednesday evening before the Photographic Society of Philadelphia in the society's clubhouse, 1722 Arch street. Professor Bradbury said that, while the enormous energy developed by radium was not to be doubted, he did doubt whether it would do all that the admirers of the new metallic salt predicted in a medical way.

KING OF SPRINTERS There seems little doubt, he said, that it would destroy disease germs of certain kind if they were exposed to its influence. but he thought it very questionable if it would prove efficacious in restoring sight to the blind from cataract, as a German scientist claimed it would.

Its wonderful penetrative power was

shown in Paris, where a small quantity had been exposed in the cellar of a house during some experiments. Some instruments on an upper floor of the building used for de-tecting and recording electric disturbances in the atmosphere suddenly began to exhibit the most remarkable fluctuations, for which no apparent cause could be found, as instruments of the same kind in other buildings gave no such indications. The infinitesimal particle of radium was removed, and after a few days the instruments resumed their normal action.

SAILED AWAY FROM BOTH CONSTI-TUTION AND COLUMBIA.

Bent Them Seven to Eight Minutes in

a Thirty-Mile Race-Accident to Shamrock III.

NEWPORT, R. I., June 30,-The Reliance scored another decisive victory over the Constitution and Columbia to-day in a fifteen-mile thresh to windward and return. Beat for beat the Constitution won over the Columbia, but time allowance probably will give the latter second place. The new craft sailed the course in seven minutes two seconds less time than the Constitution and eight minutes one second less than the older boat. The Constitution covered the thirty miles in fifty-nine seconds less

time than the Columbia. The race was sailed in a breeze of from ten to twelve miles strength and after Point Judith had been left behind on the way out to the weather mark a long rolling sea was met. The Reliance dipped deeper ites swept the card at Sheepshead Bay to- into the waves than did either of the other boats; but it had no retarding effect upon ing experienced this year. The track had her speed. On the contrary the new craft seemed to like the water, for it was at this dried and was in very good shape. Gold- point that she walked away from her opgained over the Constitution in the rough water going to windward, outpointing and outfooting the latter. Summary:

SHAMROCK III LAID OUT.

Heavy Steel Rod Snapped and a Pro-

poved Race Was Postponed. NEW YORK, June 30 .- Three min after she had crossed the starting line of what was to have been a thirty-mile race over the international course off Sandy Hook to-day, Shamrock III carried away the traveler by which her main sheet is fastened to the deck and was compelled to withdraw. She may be repaired in time to race to-morrew. The two Shamrocks were towed of to Sandy Hook lightship and with Sir Thomas Lipton and Designer Fife on board the new boat, were sent across a starting line, being the lightship and Sir Thomas's steam yacht Erin at 12:30. They crossed the line only a few seconds apart, the new boat to windward and leading by less than her own length. A twelve-knot southwest wind was kicking up white caps and there was a prospect of a fine race. The boats had gone less than half a mile when the heavy steel rod snapped off. The other fastenings holding the sheet to the deck did not give way, however. The race was immediately abandoned. The Erin passed a line to Shamrock III and towed her to Erie basin, where workmen commenced at once to remove the broken traveler. Sir Thomas said afterward that he hoped the injured boat would be ready to leave the basin again to-morrow mort Shamrock I was towed in to her mooring

THE BUSINESS MAN AS A VICTIM. The Walking-Delegate Scandal Opening the Eyes of the Public.

New York Financier. The arrest of a walking delegate in New York city last week on a charge of having extorted \$2,000 from a manufacturer whose works had been closed through an unjust order of the labor-union representative serves to call attention to the helplessness or apathy, of the average business man in the face of a situation which is becoming more serious from year to year. The walking delegate may not be any more dishonest than the average run of mankind, but, taking him as a class, he is working irreponsible injury to the industrial interests situations. Hieaway led all the way and of this country. From a subordinate posihis way upward until to-day he is an ab-solute autocrat, a director of labor and a tyrannical boss of men, employer and em-ploye alike, whose subserviency affords a spectacle both humiliating and exasperat-

In the case already alluded to the delesupposed to protect can be judged from the incident in its entirety. After having been arrested the prisoner sought to excuse his the money among the strikers. There is doubt on this point, but, conceding that he did, the crime is not lessened in the least. The payment by the employer under stress of circumstance constitutes the offense. There is a lesson in the whole matter which deserves serious attention. In one line of business alone in New York City this season twenty-five million dollars have been wasted in strikes. Other conflicts between employers and employes and between unions themselves have brought the strike bill to an amazing total. In a period of tion, 113 (T. Walsh), 4 to 1, third. And in a general way, the time has come when the business man must frame a new declaration of independence. He has been the victim long enough. The whole wo let of graft reaches out to him for support. He cannot put up a building without having first "seen" this man or that; he can not carry on improvements without feeing some one. Perhaps the business man may be accessory to the crime, but he has to live, and competition is flercer every year. The tendency to live by extortion, or "pull"—to exist as a parasite on honest in-dustry—is becoming altogether too pro-nounced.
